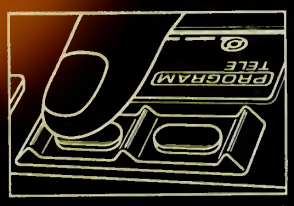
The New Vision of Photography

Touch The Future.

Canon puts the power of the computer at your fingertips with the next major step forward in 35mm photography. The Canon T70, combining optical, mechanical and computer engineering that set it apart from any camera you have ever seen or handled.



For focus-and-shoot convenience, there are three programmed modes: STANDARD for normal subjects; TELE for action and telephoto lenses; WIDE for increased depth-of-field with wide-angle lenses.

There's also Shutter-priority automation, stopped-down automation and full manual control. The optional Canon Speedlite 277T also provides two separate automatic flash modes.

There's dual metering: center-weighted average *and* selective area, measuring only 11% of the viewfinder area. The built-in Power Winder provides auto loading, film advance and power rewind, too.

What's missing? Traditional knobs and levers—replaced by touch-buttons that set and control all functions. A Liquid Crystal Display with non-volatile memory provides full information readout. The optional Canon Command Back 70 provides even more incredible capabilities. And the entire line of over fifty Canon FD lenses can be used.

Touch the future. At your authorized Canon dealer now.

IF COLLEGE STUDENTS DIDN'T HAVE SO MANY PROBLEMS, WE WOULDN'T MAKE SO MANY CALCULATORS.

Today, anyone with a brain in their head keeps a brain in their hand, too. Which is why Sharp offers a wide range of scientific and financial calculators to choose from.

Scientifically speaking, there's a Sharp calculator that functions as a BASIC computer. A programmable Sharp with a 24-digit display. And solar-powered Sharps that work without batteries.

On the financial end, there are Sharp calculators that perform interest calculations automatically. And compute mark-ups instantly. There's even an advanced model that's programmable in BASIC computer language.

In fact, Sharp makes a calculator for just about every scientific and financial problem you're likely to run into. And each one comes with an extensive applications manual that makes them easier to use.

So if you've got problems in school, take the easy course.

Buy a Sharp calculator.

"Only Bic makes a shaver for both kinds of skin."

Our Bic for sensitive skin, or our regular Bic for normal skin.

It used to be a tough world for sensitive skin. But now Bic creates the first shaver to give sensitive skin the gentle, close shave it demands. And, of course, for normal skin there's the same great shave as ever. Let every man choose for himself. Or in the words of John McEnroe, "Gentlemen, pick your Bic."

BIC

Feel the Bic difference.

THE PURPOSE OF THIS PUBLICATION IS TO PROVIDE INFORMATION ABOUT THE UNIVERSITY OF MASSACHUSETTS AT BOSTON TO PERSONS WHO WORK AND STUDY AT THE UNIVERSITY, TO PERSONS WHO MAY BE INTERESTED IN APPLYING FOR ADMISSION, AND TO PARENTS, TEACHERS, COUNSELORS, AND THE GENERAL PUBLIC. THIS PUBLICATION IS NEITHER A CONTRACT NOR AN OFFER TO MAKE A CONTRACT. WHILE EVERY EFFORT HAS BEEN MADE TO INSURE THE ACCURACY OF THE INFORMATION IN THIS PUBLICATION, THE UNIVERSITY RESERVES THE RIGHT TO MAKE CHANGES AT ANY TIME WITH RESPECT TO COURSE OFFERINGS, DEGREE REQUIREMENTS, SERVICES PROVIDED, OR ANY OTHER SUBJECT ADDRESSED IN THIS PUBLICATION. THE INFORMATION IN THIS PUBLICATION IS PROVIDED SOLELY FOR THE CONVENIENCE OF THE READER, AND THE UNIVERSITY EXPRESSLY DISCLAIMS ANY LIABILITY WHICH MAY OTHERWISE BE INCURRED.

HOW TO REGISTER

The period from Monday, April 28th through Friday, May 2nd has been set aside for registration for Fall 1986. Please read the following instructions carefully so that you will understand how to register for next semester.

Where To Obtain Your Registration Forms

1. CAS declared majors at major departments.
2. CAS undeclared majors will have forms mailed with instructions.
3. CPCS registration materials can be picked up at Enrollment Services, 1st floor Park Square.
4. Management majors at McCormack Hall, 3rd floor, Room 415.
5. Nursing majors at Science Building, 3rd floor, Room 012.
6. Physical Education majors at Science Building, 3rd floor, Room 268.
7. Education majors at Science Building, 3rd floor.

FORMS MUST BE RETURNED TO THE REGISTRAR'S OFFICE BY MAY 2, 1986.

- CPCS students should return their forms to the Office of Enrollment Services, 1st floor Park Square.
- Continuing students who do not submit registration forms by May 2, 1986 will be assessed a $25 late registration fee.

Registration Forms

1. Each student is given a form on which to register. This form allows the option of registering for nine courses or seven courses with two alternates.
2. **Free Time Exempt Form** — These forms are used so that students may indicate particular hours during which they do **not** wish classes to be scheduled. To insure that the information can be interpreted, it is essential that a #2 pencil be used to fill in the slots corresponding to the times and days of the week during which you do **not** want classes scheduled.

   Use of these forms do not enhance your chances of receiving a section that you request, they could in fact limit your ability to obtain a course because you will not be assigned to sections that meet at hours from which you have exempted yourself. Use of these forms could limit your chances of receiving a full schedule.
3. The registration form and time exemption form are read by machine. This means the markings must be completed carefully, i.e., no erasures, stray marks, folds, etc. A #2 pencil must be used.

Semester Schedule Booklets

The schedule booklet is the list of courses that will be offered in the Fall '86 semester. Your program for the next semester should be chosen from this booklet, along with the course addenda which is a list of changes made to the semester booklet (added sections, cancelled courses, etc.). Please do not select courses from the schedule booklet without checking the addendum as changes may have been made.

The University course listing is a complete listing of courses offered with descriptions. University requirements are also listed in this book.

STUDENTS WHO OWE FOR A PREVIOUS SEMESTER WILL NOT BE ALLOWED TO REGISTER FOR FUTURE COURSES UNTIL ALL FINANCIAL OBLIGATIONS HAVE BEEN CLEARED.

THESE BILLS MUST BE CLEARED BEFORE THE END OF THE ADD/DROP PERIOD, (SEPTEMBER 12, 1986) IF REGISTRATION IS TO BE PROCESSED FOR THE FALL 1986 SEMESTER. AFTER PAYING FOR A PREVIOUS SEMESTER STUDENTS MUST APPLY FOR READMISSION.

HOW TO FILL OUT YOUR REGISTRATION FORMS

1. Be sure that all numbers are penciled neatly and completely. Double check to see that entries are accurate. If a number is incorrect or illegible or not blocked in totally, the entire transaction will be invalidated.
2. Use the 6 digit schedule number assigned to the specific section of the specific time you wish to take the course (see example 1 below).

DEPT.	COURSE SECTION	SCHEDULE NUMBER	TITLE MEETING TIMES	BLDG. FLR. RM.	CR	INSTRUCTOR
P-H-I-L-O-S-O-P-H-Y						EXAMPLE 1
			INTRO PHILOSOPHY			
PHIL	100					
	1	146301	MWF 9:30	1-1-054		ANDIC
	3	146327	TUTH 11:00-12:15	1-1-054		FOSTER
	7	146343	MWF 10:30	1-1-054		ANDIC

3. When registering for a course with 2 or more parts (lec., lab) be sure to include all parts or you will arbitrarily be assigned the missing portions (see example 2 below).

DEPT.	COURSE SECTION	SCHEDULE NUMBER	TITLE MEETING TIMES	BLDG. FLR. RM.	CR	INSTRUCTOR
C-H-E-M-I-S-T-R-Y						EXAMPLE 2
CHEM	241					
LEC	1	060096	TU 9:30-12:30	1-1-054		GELB
LAB	1	069119	TU 9:30-12:30	1-1-054		GELB

4. Alternate Choice — Some choices are listed with the notation 'Alternate choice advised'. This is used for courses which in the past have been consistently overenrolled. This does not mean you cannot request one of these courses, only that you would be well advised to consider making an alternate choice along with this request. It would also be helpful to use the 2 alternate choices whether or not it is specifically advised as their use enhances a student's possibility of obtaining courses. Alternates must be a different course — not a different section of the same course. For example: Alternate 1 will be considered only if course request 1 cannot be scheduled. Similarly, alternate 2 will be considered only if course request 2 cannot be scheduled. Alternates are not transferrable from one choice to another.

DEPT.	COURSE SECTION	SCHEDULE NUMBER	TITLE MEETING TIMES	BLDG. FLR. RM.	CR	INSTRUCTOR
P-S-Y-C-H-O-L-O-G-Y						EXAMPLE 3
PSYCH	245					
			EDUCATIONAL PSYCH

INSTRUCTIONS

Using #2 pencil, fill in one block, (minimum) for each COURSE or Specific SECTION. Up to three blocks may be needed if specific sections of a course with lecture, lab and/or discussion portions are stipulated. Confine marks to designated positions. Do overlap marked positions.

Blocks eight and nine may be used where the Schedule Booklet indicated "alternate choice advised" because of frequent over-subscription. Otherwise, regular choices can be entered in eight and nine.

If one of these forms cannot describe the particular configuration of your course choices, a second form with additional information may be filed.

Carry completed form to the Appropriate Office.

EXAMPLE OF A COMPLETED TIME EXEMPTION FORM

Please note that Ms. Huxtable does not want to be scheduled into any classes after 4:00 p.m. Monday thru Friday if the sections that she initially requested are filled. If you want to insure that you are not assigned times for courses that you will not accept, please take care in filling out the forms correctly.

GENERAL INFORMATION

The N/A grade may be placed on a student's transcript if the student has registered for a course, and did not attend the course during the Add/Drop period, and failed to drop the course by the published Add/Drop deadline. The N/A grade does not affect a student's grade average The student is, however, responsible for all tuition and fees for the N/A course. The only condition which the N/A grade may be removed from a student's transcript is if the student specifically withdraws from the course on or before the published withdrawal deadline.

Faculty who take attendance may submit an N/A by the designated deadline usually during the first month of the semester.

TUITION AND FEES INSTRUCTIONS

Undergraduate Tuition

In State	$ 54.00 per credit/maximum of 12 credits	$ 648.00
Out of State	$180.00 per credit/maximum of 12 credits	$2,160.00

Graduate Tuition

In State	$ 67.00 per credit/maximum of 12 credits	$ 810.00
Out of State	$188.00 per credit/maximum of 12 credits	$2,262.00

Mandatory Fees	1 to 6 Credits	7 or More Credts
Student Activities	$15.00	$30.00
Health	24.00	48.00
Athletics	15.00	15.00
I.D.	2.00	2.00
Recreation Fee*	30.00	30.00
Orientation Fee*	25.00	25.00
Commencement Fee**	30.00	30.00
Yearbook***	20.00	20.00
Special Stud. Reg. Fee****	10.00	10.00

Other Fees

***Recreation Fee** $30.00 and **Orientation Fee** $25.00 are one time only charges for each certificate and degree seeking student in the first semester of the applicable program. They may not be cancelled or refunded unless student withdraws prior to the first day of classes.

****Commencement Fee**: Compulsory one time $30.00 fee assessed of seniors or students in the year of their anticipated graduation.

*****Yearbook:** The $20.00 fee is mandatory and billed to seniors. It is optional for everyone else and may be added to the bill at the time of bill payment.

******Special Student Registration Fee:** One time $10.00 fee charged to each non-matriculated student in their initial semester.

Late Fees: $25.00 charge for all students with a late registration determined by the regsitrar and/or late bill payment of bill clearance.

Cancellation and Refund of Tuition and Fees

Submission of a registration form and acceptance into the course incurrs a financial obligation for that course except as follows: A student who completely withdraws from the university before the sixth week of the semester will be granted a *percentage* refund of tuition and some fees based on refund schedule. (Failure to attend does not constitute a withdrawal). A withdrawal form must be completed by the student. A student who submits a withdrawal form, prior to the start of the semester at the university, will be given a full refund of tuition and fees. After the add/drop period no refund will be given for course load reductions. Students withdrawing completely from the university during the first five weeks of a semester and receiving grades of "W" for all courses will receive partial refunds. After five weeks no other refunds will be issued if any grades including "W", "NA", or Inc. are awarded.

Refund Schedule (Percentage of Tuition & Fees Owed or Reduced By)

Withdrawal Date	Owed by Student	Reduction in Charges
First Two Weeks	20%	80%
Third Week	40%	60%
Fourth Week	60%	40%
Fifth Week	80%	20%
After Fifth Week	100%	0%

NOTE: M/3/130 (Old Faculty Lounge)

COLLEGE OF MANAGEMENT (CM)
FALL 1986

Registration Procedures and Information

Registration forms for all College of Management students will be available in the CM Office of Student Services (020/3/415) from 8:30 a.m. to 7 p.m., Monday through Thursday and from 8:30 a.m. to 5 p.m. on Friday during Advance Registration, April 28–May 2, 1986. Completed registration forms must be returned to the Office of the Registrar by 5:00 p.m. on Friday, May 2.

A full-time registration for CM students is a maximum of five courses. Registration for more than 15 credits requires written permission of the CM Assistant Dean for Student Services. Normally such permission is given only when a student's cumulative grade point average is 3.0 or above.

Advising

College advisors, as well as peer advisors, will be available in the CM Office of Student Services during the hours listed above to assist CM students with course selection:

Students who have successfully completed a minimum of 60 credits and who have declared a concentration are encouraged to make an appointment to see their faculty advisors. Faculty advisor assignments are posted in the CM Student Services area each semester. All CM students should also see a college advisor in the Office of Student Services several times during their college career to officially update their program plan.

Course Selection

Degree requirements are available in the CM Office of Student Services. Students in the College of Management are expected to complete general education requirements as well as other 100 and 200 level required course work during the first two years of study. All 300 and 400 level CM courses, including Management Core and Concentration requirements, may only be taken after the student attains junior (earned 60 credits) or senior (earned 90 credits) standing.

Incomplete Courses

Students who have received an incomplete grade in a course through a prior arrangement with an instructor must go to the original instructor, or in his/her absence to the Department Chair, to make arrangements to complete the course. **Do not reregister for the course.**

Pass/Fail Regulations

Students in the College of Management may take elective courses only on a pass/fail basis. Required courses in general education, the management foundation, management core and concentration may not be taken pass/fail.

Non-Management Students in CM Courses

Non-management students may only register for AF 210, Financial Accounting, and AF 211, Managerial Accounting. With very few exceptions, which require prior written approval from the CM Office of Student Services, registration in all other College of Management courses is closed to non-management students. Exceptions to enroll in a particular course(s) require a written request to the CM Office of Student Services accompanied by official transcripts of all prior college level coursework.

PHYSICAL EDUCATION
FALL 1986

Registration Procedures and Information

Registration forms for all Physical Education majors will be available in the Physical Education office (Science Building, 3rd floor) from 8:30 a.m. to 4:30 p.m., Monday through Friday during the Advance Registration, April 28–May 2, 1986.

Advising

Faculty will be available in the Physical Education office to assist students with course selection during Advance Registration. Faculty will also be available for advising during the orientation dates in the summer. It is advisable to call and make an appointment with a faculty member (929-8598).

Students who have completed a semester and have declared a specialization in Physical Education should make an appointment to see their faculty advisor. Faculty advisor assignments may be obtained from the secretary.

All Physical Education majors must fill out a major registration card each semester. Each faculty advisor will have these cards or they may be picked up in the secretary's office. Please check to see that your name is on the department list of registered majors.

Course Selection

Degree requirements are available in the Physical Education office. Physical Education majors are expected to complete the core curriculum as set forth by the College of Arts and Sciences and are required to demonstrate proficiency in writing as outlined by the College of Arts and Sciences. Further information about the Writing Proficiency Requirement can be obtained from CAS Academic Support Services, M/3/625.

Any student who is not completing a program in Physical Education may elect up to four skill development courses for credit during his/her college career.

Skill development courses may be listed in the schedule booklet as starting the first or second seven weeks. Courses starting the second seven weeks will commence October 22nd for Monday/Wednesday/Friday classes and October 23rd for Tuesday/Thursday classes.

Declared Majors

Registration forms will be available within major departments and must be returned to the Office of Registration and Records by 5:00 p.m. on Friday, May 2nd.

COLLEGE OF ARTS AND SCIENCES COURSES LOAD POLICY

Students may enroll for no more than FIVE (5) courses. After the first semester, however, students may take ONE (1) additional course under the following conditions:

(A) The student's overall grade point average is 3.0 (or above) or the grade point average for the previous full-time semester is 3.5 (or above).

AND

(B) Written permission is secured from the Associate/Assistant Dean for Academic Studies.

INCOMPLETE POLICY

The grade incomplete (INC) is reported only where a portion of the assigned or required class work, or the final examination, has not been completed because of serious illness, extreme personal circumstances, or scholarly reasons at the request of the instructor. If the student's record is such that s/he would fail the course regardless of the result of the missing work s/he fails.

Permission of the instructor must be obtained and the **Form for Grade Incomplete** must be completed. These forms can be obtained from the appropriate Departmental offices.

A student receiving the grade of "incomplete" is allowed one full year in which to complete the course. The new grade must be submitted to the Registrar's Office by the grading deadline for that semester, i.e., by the end of the **next fall** semester for fall incompletes; by the end of the **next spring** semester for spring incompletes. The grade for any course not completed by this deadline will be converted to the grade of "F" and the course cannot be completed.

N/A GRADE

The N/A grade may be placed on a student's transcript if the student has:

registered for a course, and
did not attend the course during the Add/Drop period, and
failed to drop the course by the published Add/Drop deadline.

The N/A grade does not affect a student's grade point average. The student is, however, responsible for all tuition and fees for the N/A course. The only condition in which the N/A grade may be removed from a student's transcript is if the student specifically withdraws from the course on or before the published withdrawal deadline.

Faculty who take attendance may submit an N/A by the designated deadline usually during the first month of the semester.

CLASS ATTENDANCE

Students whose names appear on a course roster may be asked to drop the course or be added to the end of the waiting list at the end of the second class session if they have not attended either class or have not communicated their intention of attending the class to the instructor or the department chair in writing. In the case of a class that meets only once a week, failure to attend or to communicate the intention to attend either to the instructor or department chair by the beginning of the second meeting will result in the same action.

THE WRITING PROFICIENCY REQUIREMENTS

Part of the Core curriculum requirement is the demonstration of proficiency in writing. This must be done by the beginning of the junior year (60 credits). The requirement holds for all students who entered CAS as freshmen in September, 1978 or thereafter, or for transfer students who entered CAS in January, 1979 or thereafter.

Proficiency may be demonstrated either by passing a special examination or submission of a successful portfolio.

The Writing Proficiency Examination

The examination is given four times a year. Dates are posted in the Mass Media and in the Office of Academic Support and Advising (M/3/625). A student may sign up a month in advance of the schedule date, and will receive the reading materials upon which the examination will be based. In order to pass the examination, the student must write an acceptable essay based on a question designed to elicit evidence of thorough understanding of the material read, as well as the ability to synthesize the material, draw inferences, and construct a well-organized response in good English.

Note that the Writing Proficiency Examination is not the same as **the English Placement Test** which all students take upon entrance to the College.

The Portfolio

The portfolio offers an alternative method of demonstrating writing proficiency. It may be submitted at any of the scheduled examination times. It consists of four papers, each at least five typewritten pages in length. Three of these are expository papers, written for courses, and based upon reading materials. The instructor's assignment and affirmation of originality must be included in each case. The fourth paper is a new one, written on a topic and a series of readings distributed by the Office of Academic Support and Advising.

Students who have not satisfied the writing proficiency requirement by the beginning of the junior year will have curtailed schedules until the requirement has been satisfied. Complete details of the regulations are available in the Office of Academic Support and Advising.

MANAGEMENT MINOR FOR CAS STUDENTS

The College will sponsor a minor in management in collaboration with the College of Management. Prerequisites include Econ E101, Econ E102, Math D110, Statistics, the completion of 45 credits, a grade point average of at least 2.75 and completion of prerequisite courses with a B- or better. More information and application forms are available in the CAS Office of Academic Support and Advising. Application Deadline for Spring '87: November 1, 1986.

COLLEGE OF ARTS AND SCIENCES CORE CURRICULUM (Revised)

Students who entered the College of Arts and Sciences prior to Fall 1979 may fulfil the Core I or Core II requirements. For specific information, contact the College's Office of Academic Support and Advising.

THE CORE CURRICULUM

The CAS senate has established a Core curriculum that will constitute approximately one third of the student's total academic program and complement the student's concentration in one field or discipline of study with a general, coherent exposure or introduction to the several areas and disciplines into which liberal learning is organized.

Liberal Learning—the kind of learning that broadens awareness, deepens understanding, poses alternatives, and informs vital decisions—may be divided into seven broad categories, four of which are designated as Core areas and three of which are designated as Core **disciplines**. Categories designated as areas include the following: I. Historical and Cultural studies concern the reconstruction and interpretation of the human past and seek to understand both literate and non-literate cultures. II. Philosophical and Humanistic studies focus on the analysis of concepts and values, social, ethical, religious, and cognitive, and interpret the world through the critical application of such concepts and values to experience. III. Social and Behavioral Sciences—such as anthropology, economics, psychology, politics, and sociology—analyze the world in terms of structures and processes of behavior, of social interaction and institutions. IV. The Arts approach the world through an awareness and use of forms of creative expression such as music, drama, literature, natural sciences, paintings, sculpture and architecture. The three Core **disciplines** are foreign languages and mathematic and computer languages. V. Natural Sciences seek an experimental understanding and application of the laws that explain natural phenomena, and approach the human world through a study of its natural elements, structures and processes. VI. Foreign Languages provide an understanding of human thought, feeling and culture through a study of the

structures, meaning, functions, and development of speech; the study of a language not one's own improves mastery of one's own language and contributes eventually to the understanding of another culture. VII. Mathematics and Computer Languages exhibit self-enclosed symbolic systems whose analytic pleasures and practical uses extend our sense of the nature and processes of human thought and the manageability of reality. All seven areas are components of a liberal education. One is not liberally educated without a basic sense of what they are, how they work, and how they may relate to each other.

CORE CURRICULUM REQUIREMENTS

(Students Matriculated Fall 1979—Spring 1985)

The College of Arts and Sciences has revised the Core Curriculum, and these revisions will be in place for Fall Semester 1985. The **revised requirements will not apply to any student admitted and matriculated prior to the beginning of the Fall 1985 term.** Students admitted to and matriculated in the College between Fall 1979 and Spring 1985 are still required to take 12 courses in six or seven core areas, up to three courses in any one area, otherwise no more than two, and at least three core courses at the intermediate (200) level.

N.B. There are two changes that affect students in this category. Previously all core courses were identified with the prefix "C". Beginning in the Fall 1985 term, Core courses have **three** different prefixes: "C", "D", and "E". Students may use courses with any of these prefixes to complete the core requirements, but **must** complete 5 "C" courses. The second change involves waivers; see Core Course listings, Math and Foreign Language.

The Requirements:

1. 1 Year of freshman writing (or gain a waiver by placement exam).
2. 12 Core courses selected from the following seven areas; in any one area, a student may count up to three courses, otherwise no more than two. Three of the Core courses must be at the intermediate level.

   Historical and Cultural Studies
   Philosophical and Humanistic Studies
   Social and Behavioral Sciences
   Natural Sciences
   The Arts
   Mathematics and Computer Languages
   Foreign Languages
   (students electing first-semester courses must complete two semesters in the same language.)

   Any of the following patterns will satisfy the Core requirement:

Seven Areas	Six Areas
2,2,2,2,2,1,1	2,2,2,2,2,2
3,2,2,2,1,1,1	3,2,2,2,2,1

   A student who presents evidence through placement score or transcripts of intermediate proficiency in a foreign language or of work equivalent to college calculus (Math 140, 141) may waive the foreign language or mathematics courses. Students granted a waiver in foreign languages or mathematics need take only 10 Core courses in the remaining six areas, only 1 of which need be intermediate; students granted two waivers need take only 8 Core courses in the remaining five areas, none of which need to be intermediate.
3. All students must pass the writing proficiency examination or present a satisfactory portfolio of papers before the beginning of the junior year (60 credits).

CORE CURRICULUM REQUIREMENTS

(Students Entering or Readmitted) In Fall 1985 And Thereafter

For a statement of the core curriculum and the areas of instruction, see above.

Identification of Core Courses

All courses that satisfy core requirements are identified by a prefix "C", "D", or "E" in their course number. "C" courses offer instruction in writing critical thinking or computational skills within the areas of the Arts, Philosophical and Humanistic Studies, Historical and Cultural Studies and Social and Behavioral Studies. They feature small classes. "D" courses offer basic instruction in disciplinary skills in the Foreign Languages, Mathematics and Computer Languages and the Natural Sciences. "E" courses are electives in all core areas and typically introduce the academic fields within the core areas. C, D, and E courses are offered at both the introductory (100) and intermediate (200) levels.

In the sections of course descriptions appearing later in this catalog, offerings satisfying Core Curriculum requirements are listed first. (To learn which core courses are to be offered each semester, students should consult listings issued by the Office of Registration and Records prior to registration).

Core Requirements

** Twelve courses from no less than six of the seven core areas.
** In any one area a student may count up to three courses, otherwise no more than two.
** Of the twelve courses, students must take:
   (i) Three "C" courses at the 100 level.
   (ii) Two "C" courses at the 200 level.
   (iii) At least three "D" courses.
   (iv) The remainder as "E" courses or "D" courses.

   Students may count no more than five "C" courses toward the core requirement or toward graduation. This restriction does not apply to students admitted before September, 1985. Those students have the option of satisfying the 12 course requirement with C, D, or E courses in the appropriate areas.
** At least three of the 12 core courses must be taken at the 200 level.

Waivers

Students who present evidence through placement scores or transcripts of intermediate proficiency (equivalent to the fourth semester of college work) in a foreign language or of work equivalent to college calculus (Math 140, 141) may waive Foreign Language or Mathematics courses. Students granted a waiver in Foreign Language or Mathematics need take only 10 courses to complete the distribution requirement, students granted two waivers need take only 8 courses to meet the distribution requirements. One of the courses may be a course in Mathematics beyond Math 141 or in Foreign Language beyond the intermediate level.

CORE WRITING REQUIREMENTS

Freshman Writing

All students must take a year of Freshman Writing or gain a waiver by examination.

Proficiency in Writing

Both the overall design of the Core Curriculum and the materials and methods of individual core courses assist students in acquiring proficiency in the skills of writing, of languages other than their own, of mathematics, of the arts, and of science. Foremost among these skills is the ability to use the English language effectively to present ideas clearly, correctly, and persuasively in prose. For this reason the College requires all students to demonstrate proficiency in writing by either passing a Proficiency Exam or submitting a satisfactory portfolio of papers before the beginning of the junior year. Further information about the Writing Proficiency requirement is available from the College's Office of Academic Support and Advising.

Transfer Credits

Approved courses from other institutions offered by transfer students will be accepted for distribution requirements within the relevant core areas. If fewer than 12 courses are accepted for distribution at the time of transfer, the student must complete the remainder of the requirement within the college. Please consult the Director of Transfer Affairs in the Admissions Office for further information.

CREDIT FOR ACADEMIC SKILLS COURSES

Students who need to take Academic Skills courses may take all five courses, but may only count 4 credits towards the Arts and Sciences requirement for a B.A. or a B.S. degree, of these only 2 may be in Math Skills (ACDSKL 033 or ACDSKL 034).

12 alternatives to whacking your kid.

When everyday problems pile up, don't take it out on your kid. Try any or all of these alternatives:

1. Stop in your tracks. Step back. Sit down.
2. Take five deep breaths. Inhale. Exhale. Slowly, slowly.
3. Count to 10. Better yet, 20. Or say the alphabet out loud.
4. Phone a friend. A relative. Even the weather.
5. Still mad? Punch a pillow. Or munch an apple.
6. Thumb through a magazine, newspaper, photo album.
7. Do some sit-ups.
8. Pick up a pencil and write down your thoughts.
9. Take a hot bath. Or a cold shower.
10. Lie down on the floor, or just put your feet up.
11. Put on your favorite record.
12. Water your plants.

Take time out. Don't take it out on your kid.

ROSS UNIVERSITY

Offers superior courses of study leading to qualified degrees in Medicine and Veterinary Medicine.

SCHOOL OF MEDICINE

● American Medical School curriculum ● One of the highest pass rates on ECFMG by Ross graduates ● We have affiliations and working agreements with more than 30 hospitals in the United States where our students do their third and fourth years of clinical clerkships. Accredited by the government of Dominica ● Listed in WHO ● Very high percentage of our graduates doing residencies in U.S. hospitals, many of which are affiliated with U.S. medical schools ● Many of our graduates are now practicing in many states throughout the United States ● Many of our students are able to transfer into U.S. medical schools from our Basic Sciences ● We are approved in more states for clinical training and licensure than any other Caribbean School ● U.S. Department of Education Guaranteed Student Loans. VA benefits and a loan program for entering students are available.

SCHOOL OF VETERINARY MEDICINE

● American Veterinary Medical School curriculum ● Accredited by the government of St. Kitts ● Listed in the AVMA ● 3½ year veterinary medicine program both in St. Kitts and the United States ● Only foreign School of Veterinary Medicine doing clinical rotations in the United States ● U.S. Department of Education guaranteed Student Loans, VA benefits and a loan program for entering students are available ● Our graduates have achieved outstanding scores on the state examinations.

NOW ACCEPTING APPLICATIONS FOR SPRING, SUMMER & FALL semesters.

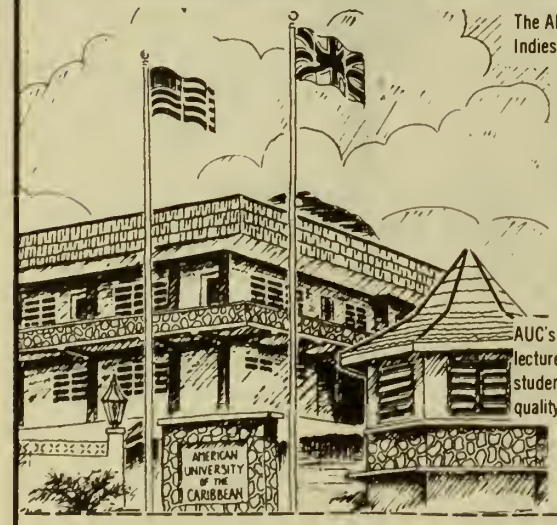
AMERICAN UNIVERSITY OF THE CARIBBEAN SCHOOL OF MEDICINE

"GUARANTEED STUDENT LOAN PROGRAM AVAILABLE"



The AMERICAN UNIVERSITY OF THE CARIBBEAN, SCHOOL OF MEDICINE (AUC) is located in Montserrat, British West Indies– a politically stable democratic Crown Colony of the United Kingdom.

- Accelerated 3-year (38 months) M.D. program taught in English, using US medical textbooks, American/British Faculty, American Curriculum.
- Three starting classes per year beginning in January, May, and September.
- Low affordable tuition: Basic Sciences $3200/sem, Clinical Sciences $3600/sem.
- Listed by the World Health Organization.
- Approved for Guaranteed Student Loan Program and Veteran Administration's VA Benefits.
- An impressive record of many AUC students successfully transferring to US medical schools.
- Over 850 graduates and many in successful residencies and private practices.
- 7-year track record of student success.

AUC's multi-million dollar campus facilities and physical plant consist of 16 buildings. Modern and contemporary lecture halls, laboratories, library, state-of-the-art audiovisual system, dormitories, American style campus cafeteria, student activities center and much more. This substantial investment serves to underscore AUC's commitment to quality education. To receive additional information, call or write to:

PARKING REGULATIONS

THE UNIVERSITY OF MASSACHUSETTS AT BOSTON

General — No person shall allow or permit any vehicle registered in his/her name or under his/her control to park or stand on any street or other area of the campus or other lands of the University in violation of these Rules and Regulations. No vehicle may be parked in any area of the campus not intended for such parking, the person in whose name a motor vehicle is registered will be held responsible for all parking violations.

On the Harbor Campus, parking is restricted to the parking garages and connecting parking lot. Payment for parking shall be made upon exit from the garage.

On the Huntington Ave. Campus, parking is restricted to the Faculty/Staff lot on Huntington Ave., the Staff lots on Palace Rd., and the night student parking in the Boston Latin High School parking lot on Palace Road. Only those with authorized permits are allowed to park in these areas.

There are no University parking areas for the Park Square Campus.

Motor vehicles parked in these areas shall be kept only within the clearly designated parking spaces.

Motor vehicles with evidence of non-use, left in parking areas, streets or other University property for fourteen (14) days or more shall be towed away under the direction of the Director of Public Safety or any University Police Officer, and the owner of the vehicle so towed away shall be liable for the cost of such removal and storage and shall also be subject to the penalties provided in Chapter 90, Section 22B, of the General Laws of the Commonwealth. The owner will also be held responsible for the care and protection of, or damage to, any such motor vehicle and its contents.

Operation of Vehicles on Campus

Speed limit — A) All vehicles will be operated at all times at a speed that is reasonable and proper. B) At no time will a speed on any campus roadway in excess of twenty-five (25) miles per hour be considered reasonable and proper, except as otherwise posted or for vehicles engaged in emergency response. C) At no time shall a vehicle be operated within any campus parking area, or garage or area within which buses are engaged in loading or unloading passengers, at a speed in excess of five (5) miles per hour unless otherwise posted.

Disturbance — No vehicle may be operated so as to cause undue noise or disturbance.

Operating conditions of vehicles — Vehicles parked on any University property must be kept in such conditions of mechanical repair that they can be removed at any time under their own power.

Loading and discharging of passengers — Loading or discharging of passengers is permissible only when a vehicle is at a complete stop at the edge or curb of a travelled way or within a safety or service zone expressly approved for this purpose by appropriate signs and/or instructions.

Eligibility — Permission to operate a vehicle on the campus or other lands of the University is a discretionary privilege bestowed by the Board of Trustees of the University and such privilege may be denied, revoked, suspended or modified by the action of the Trustees or by the officers of the University herein authorized to take such actions under Chapter 15A, Section 13 or Chapter 75, Section 32A of the General Laws.

Any person may operate a vehicle on the campus, provided that person is otherwise eligible to operate vehicles upon the public highways of the Commonwealth. Said vehicles shall be operated and parked in appropriately designated parking places on campus. Vehicles may not be operated on campus unless all outstanding University parking fines and fees have been paid; parking privileges will be revoked, denied, suspended or modified for failure to pay current unpaid University parking fines and fees and such vehicles shall be towed away.

Liability coverage — No vehicle may be operated on the campus or other lands of the University unless the vehicle has met the Motor Vehicle Liability Policy or Bond requirements for the operation and use of motor vehicles upon the ways of the Commonwealth.

Non-resident students — A student's motor vehicle bearing other than Massachusetts registration plates must also be registered with the Massachusetts Registry of Motor Vehicles under the provisions of Chapter 90, Section 3 of the General Laws of the Commonwealth or will be subject to the described penalties. The necessary forms for registration will be available at the University's Department of Public Safety Office.

Limits of liability — The University shall not assume responsibility for any motor vehicle or parts thereof, or its contents while parked or being operated on University property. The registered owner assumes all risk of accident, and the University of Massachusetts shall not be liable for resulting injury to person or loss or damage to property.

Reporting of accidents — All accidents involving motor vehicles which occur on University property shall be immediately reported to the Department of Public Safety Office. This report is in addition to the notification to the Registry of Motor Vehicles of the Commonwealth as required by statute.

Total Beauty for Success

A simple effective regimen for the busy professional woman to achieve a healthy glowing complexion. No artificial fragrances used, all natural ingredients enhance each formula.

Complete European Skin Protection System

Balanced Cleanser: Mild, cleans away makeup. Preserves the natural balance of the skin, for all skin types. ***Net. wt. 6 oz.***

Toner: Gentle refining smoothing action with natural non-drying extracts of chamomile, balm-mint and fennel. ***Net wt. 6 oz.***

Daily Protection Moisturizer: Light moisturizer, protects with Paba sun-screen aid, jojoba and collagen. Leaves no greasy film. ***Net wt. 4 oz.***

Refining Grains: Natural minerals clean pores and embedded impurities. Leaves skin smooth and polished. ***Net wt. 2 oz.***

SKIN TYPES: ☐ NORMAL TO DRY ☐ NORMAL TO OILY ☐ NORMAL

GOOD LOOKS

CAMPUS CARE FOR SKIN AND HAIR

Good habits can make a difference

BY BETTY POPOVICH

It's spring. Exams and term papers are ahead, and then comes the long-awaited summer break. Whether your summer plans include travel, a new job or just relaxing at the beach, now is the time to get yourself in shape — mentally as well as physically.

The school year has probably taken a toll on your psyche. Living away from the comforts of home isn't always easy. Face it, whether you're living in a dorm or in an off-campus apartment, you're on your own. How well you eat, how much you sleep — if you sleep — and how you pull yourself together each day are all decisions that you have to make. The habits you form now will probably stay with you long after you leave school.

Living on your own requires a tremendous amount of self-discipline. No one is there to tell you to study for exams or finish your homework assignments. Confronted with a time-consuming research paper, a demanding class project or a difficult exam, you may find academic life a pressure cooker.

Those of you entering the workforce this summer are being hit by a double whammy. Filling out job applications, going on interviews and not knowing if you'll get the job you want are pressures you don't need when you're trying to concentrate on school work.

It's not easy being a student in today's competitive world. Pressure and stress, however, are two things you will always encounter in life. Learning to cope is important.

Campus Care Kit

The right products for getting started along the right path in good grooming habits can include: Clinique's Clarifying Lotions 1, 2, and 3, and Clinique's Mild Facial Soap; Shulton's Old Spice Body Talc; Sebastian's Fizz Clear Styling Foam Mousse; Pantene's Hairdresser Design Hairbrush; Elizabeth Arden's Advanced Skin Energizing Extract Texturing Emulsion; Orlane's Extrait Vital Dual Skin Repair Complex; L'Oreal's Visuelle Makeup Fluide, and L'Oreal's Visuelle Powder Blush. (Photographs by Robert Lorenz)

Anti-Stress Strategies

Coping with stress is to not let it become habit forming. Think positive: You've gotten this far and learned a lot. Now all you have to do is make the most of what you know. And, above all, take care of yourself.

Looking good helps you feel good. When you look your best, you feel more confident and are better able to deal with life's little—or not so little—pressures. Fight the temptation to just roll out of bed in the morning, throw on wrinkled clothes and appear in class—for better or worse.

Instead, start your day with a refreshing shower. Use one of those great scented bath soaps that will help make your shower an eye-opening experience. A good shower balm or body lotion will help moisturize dry skin and keep it from becoming rough. It goes without saying, of course, that no matter what the hour or how tired you are as you prepare to climb into bed at night, you should never go to sleep without first thoroughly cleansing your face.

Make sure your hair is squeaky clean. There are a lot of interesting hair-care products available that will help clean, condition and style your hair. The next time you go to the drugstore, take a good look at what's written on the labels of the different products. You'll no doubt find a shampoo, conditioner and styling product that's just right for you.

If you don't have a blowdryer, invest in one. It will enable you to take care of your hair more easily. It may also pay to invest in a visit to a reputable hair salon, where a professional stylist can help you select a cut that works with your face, your hair type and your lifestyle. The best hairstyle is one that enhances your overall appearance and also requires little fuss.

Wear a cologne or body splash for a well-groomed feeling. There are many fragrances available. You can create a fragrance wardrobe to meet your daily needs: A light cologne for the classroom, a citrus or chypre scent to help revive you after sports activities, and a more traditional scent for that all-important job interview. And, for those special evenings with that special person, wear a fragrance that expresses how you feel. Remember, scent enhances your "look" and personality. Many of the stores that sell fragrances have beauty advisors, who will help you choose a fragrance you can wear and enjoy. While you're at it, you might take a moment to examine the condition of your hands and feet. Are you paying the price — in calluses and bunions — of walking around in ill-fitting shoes? Are your fingernails ragged and bitten, or do you keep them smooth, polished and trimmed to a reasonable length?

Take time to pamper yourself. Do something that will boost your spirits and help relieve stress. If the time crunch is what's getting you down, make an event of what could be a normally routine activity. For example, since you have to eat no matter how busy you are, make the most of it. Slip into your favorite outfit, splash on a nice cologne and meet a friend for dinner. By the time coffee is served, the good conversation and good food should have put you in a better, more productive mood.

Exercise to relieve stress. Sitting in a stuffy library for long hours isn't healthy. During long study sessions, make an effort to get outside. Even if your school is in the city, a brisk walk around the block can help clear your head. If your campus has a more rural setting, all the better.

Take a bike and go for a quick ride, or jog a mile. Do something to get your cardio-vascular system pumping; to keep those muscles moving.

If you're spending any length of time outdoors, make sure you wear something to protect your skin from the sun's harmful rays. A quick application of a sunscreen will help block ultraviolet rays that can damage your skin. If you spend time in the cold, make sure to moisturize your skin. You can't study in comfort if you're suffering from sun or windburn.

Grooming & Fitness

Good grooming is more than skin deep. This may sound like a cliché but it's true. It's not enough to wash your hair, apply makeup and splash on fragrance. You cannot look your best if you let your body get run down.

Eat right. A well balanced diet is one of the keys to a glowing, healthy-looking complexion. Make sure that your food provides you with all the necessary vitamins. If you have a weakness for junk food—and we all do—make sure you supplement your diet with vitamins. The next time you go to your local drugstore make a quick stop at the vitamin section. Vitamin B will help combat stress (look for the special stress formula); vitamin C will help you fight off colds. More than a few professional models and beauty experts also swear by the importance of keeping plenty of water coursing through your system—tap water, mineral water, spring water, seltzer—preferably eight full glasses a day.

Get enough sleep. Yes, sleep. During the end-of-term crunch, sleep is something you tend not even to think about, much less experience. But it is important. The last thing you want to do is let your body get run down. A dead-tired zombie is not going to do his or her best on an exam, or make a great impression during a job interview.

For those times when frequent "all nighters" are impossible to escape, use a cover cream to highlight your eyes. It's no substitute for sleep, but it might make you feel better about the way you look.

Practice makes perfect. Remember, the good grooming habits you form now will be with you for the rest of your life. Knowing which grooming products are best for you is a major step toward establishing an effective grooming regimen.

You're young. Now is the time to experiment. Read labels on products. Learn what they can do for you and how to use them for best results.

Fine Lotions & Potions

Gillette's Foamy Fresh Lime Shaving Gel; Yves Saint Laurent's Stick Anti-Perspirant; Goody's 100% Boar Bristle Professional Brush; Gil Ferrer's Conditioning Shampoo; Le Grand Kohl Cosmetic Pencils; Vidal Sassoon's Shampoo, Finishing Rinse, and Protein Hair Conditioner; Revlon's Creme Nail Enamel and Moon Drop Lipstick; Almay's Hypo-Allergenic Pressed Powder; Cover Girl's Eye Shadow; Cacharel's Anais Anais Eau de Toilette; Paco Rabanne's After Shave and Eau de Toilette; and Stendhal's Mascara.

Special Grooming

You're special. Your sleep habits, diet and grooming requirements have to be custom tailored to meet your needs. Only you know how much sleep is necessary to help you work effectively. A nutritionist can give you a proper diet.

When it comes to meeting your grooming needs, try talking to the beauty advisor in your local drugstore or department store. Beauty advisors can be a wealth of information and can direct you to those products best suited to your needs.

One final word. Your college experiences are building blocks for the rest of your life. Decisions you make now and habits you form will stay with you forever. Be smart. Get off to a good start. You owe it to yourself. ■

DOLLARS & SENSE

FINANCING YOUR FIRST CAR

What you auto know!

BY MIKE KNEPPER

You have endured the Peloponnesian War, understand what T.S. Eliot really meant and have a handle on supply-side economics. You're educated. And, after enduring 763 sweaty-palm interviews, you even have a job that starts in a few weeks. Now you're about to experience one of life's great firsts: your first I-bought-it-myself new car.

The prospect is both exciting and intimidating. You'll have to contend with a crafty salesman, you'll need credit references you don't have, there is a willing bank to find, and there's bound to be a beady-eyed loan officer and yet another sweaty-palm interview.

Not exactly. As it turns out, financing that first new car is going to be a lot easier than you think.

What follows pertains to graduating seniors, who have what the rest of you are working for: a diploma and a job. But the truth about to be revealed applies to all of you because sooner or later you will be ready to play the game. Of course, if you have a part-time job and your parents are willing to cosign a loan, you may not have to go through the following procedures.

The first step is to decide which car you want to buy, basing the decision on (1) what you can afford and (2) what you want. Then check local newspaper ads for incentives, such as special deals on certain models, rebates or low interest rates. And finally, arrange for proof of that new job: a note from the personnel director, for instance.

Ultimately, you have to visit the showroom and that means dealing with a salesman. Again, not to worry. Just be prepared to resist the temptation of a higher-priced model and extra-cost options if they will push the price out of reach.

That brings us to money. About one out of every 10 times, a showoff whips out a checkbook and pays for a new car on the spot. The other nine times financing is arranged, primarily from a bank, a credit union or the car manufacturer's financial subsidiary. It's unlikely that you have a credit union at your disposal, so let's talk banks and financial subsidiaries, such as General Motors Acceptance Corporation (GMAC), the largest lending institution in the world, and Ford Credit Corporation, the second largest.

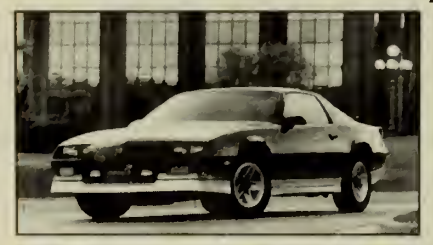
One scenario is to decide on the car, work out the price with the salesman, and look for a bank on your own. This approach lets you shop for the lowest interest rate available. However, it's time consuming, not to mention tedious.

An alternative is to let the dealership handle the preliminaries. Every dealership has a relationship with a bank and will start arranging for financing as soon as you sign the order form. Or you can ask the salesman to hook you up with the manufacturer's financing operation.

Whichever way you go, you'll be asked to fill out a loan application form. And, of course, they'll ask for the dreaded credit references. Dreaded, because most graduating seniors have precious little credit to refer to.

Dread not. Turns out you're in better shape in that department than you know.

Popular first cars of college students:



Chevrolet Camaro. The most popular 2+2 sport coupe ever built. The four new models for 1986 are the basic Sport Coupe, the luxury Berlinetta, the Z-28 and the ultra high-performance IROC-Z.

Pontiac Fiero. Hottest selling two-seater in the country. This year, a GT model with a fast-back roofline joins the basic coupe, Sport Coupe, and SE versions. Engine: 2.5 litre, 4-cylinder, optional VC 2.8 litre.

Dodge Daytona. A classic and still a very good buy. Features a Turbo Z, 146 horsepower engine. The six speaker stereo system is standard. T-Bar roof, and special handling package are optional.

GM
Let's get it together...buckle up.
IT'S NOT POLITE TO STARE!
CHEVROLET
CAMARO
This is where driving excitement comes to life. In Camaro. It's the heartbeat of America.
TODAY'S CHEVROLET
Live it!

First, there's the obvious: a gas credit card in your name, a charge account at a department store. A good record there indicates, as the people in the lending business are apt to say, a willingness to pay. They like that. Then there's your diploma, which indicates an ability to complete a project, and makes you a valuable commodity in the job market.

So, with all the above and enough cash for a down payment of typically 10 to 20 percent of the car's price, you will most likely be granted a loan.

New-car loans are typically for 36 months, although 48-month loans are becoming more common. A 48-month loan obviously means smaller monthly payments, but it also means an additional year's interest.

Banks tend to be conservative in their loan practices, so there may be some reluctance to make a loan, especially if you'll be taking the car out of state.

The manufacturer's financial subsidiaries, on the other hand, will go out of their way to sign you up. They're looking for a lifetime customer, and the first step in creating one is to get you in one of their products.

Although just about every manufacturer selling cars in the U.S. these days looks kindly toward graduating seniors, Ford is currently most aggressively pursuing their business.

During their last semester, many seniors receive a mailing from Ford offering a $400 rebate on certain cars and "conditionally pre-approved credit." According to Don Forsyth of Ford Motor Credit, that means "a senior can walk into a Ford dealership with the certificates in hand and leave owning an automobile without having to go through a great deal of advanced preparation." Ford plans to repeat the offer in the spring of 1986. Ford also offers a special financing plan for graduating seniors.

"If a student is graduating in April, for example, and has a letter indicating the new job starts in August," Mr. Forsyth explains, "we will finance the car, defer the first payment for 120 days and offer a choice of equal monthly payments or ascending payments that keep pace with probable salary increases."

GMAC has a similar program that offers financing if you lease or purchase any General Motors vehicle. Sometime during their last year, seniors receive a mailer from GMAC outlining a financing plan that calls for just 5% down payment, no "derogatory" credit history (no credit is okay), and some proof of employment. GMAC will delay the first payment for 90 days and will absorb the interest charges for the first 60 days.

And Chrysler Credit is also offering special deals for graduates. A lease financing plan that offers favorable terms has been in place for some time, and a similar plan for the purchase of a new car should be in place in the near future.

So, what it all boils down to is good news for you diploma-holders. You've worked hard, you've accomplished a great deal, and there's a lending institution out there that wants to make your new-car dream come true. ■

Mike Knepper, a former editor of CAR & DRIVER, is a freelance writer.

The lease option

Buying a car, as outlined above, is a relatively simple procedure. You choose the model you want, arrange a bank loan, come up with the down payment, sign on the dotted line, and the car is yours . . . and the bank's.

Then there is leasing. Leasing is a more complicated concept than buying, but it has an advantage, particularly if you are a graduating senior. When you lease a car the down payment and monthly payments required will usually be smaller than when you buy.

One important difference between the two is that when you buy a car you own it, but when a lease agreement expires, you do not own the car because you have not paid for all of it.

Basically, lease payments are determined by subtracting the amount of money the car is worth at the end of the lease from the estimated value of the car when new. That is why leasing is less expensive than buying. Lease payments can also include taxes, maintenance costs, replacement tires and insurance.

There are two major types of lease arrangements: a closed-end lease and an open-end lease. Under a closed-end lease, the leasee simply returns the car to the lessor at the end of the lease.

When an open-end lease expires, the customer is liable for any difference between the estimated value of the car when the lease began and the selling price of the car when the lease expires.

Of course, there are variations, subparagraphs and fine print on these basics that are best carefully examined by you on a situation-by-situation basis.

The following chart, based on data supplied by Chrysler Financial Corp., compares the costs of a theoretical purchase against leasing the same car. ■

Today's electronics entertain and educate at affordable prices

BY DAN SHANNON

My how times have changed. Fifteen years ago you could walk into an electronics store and plunk down $1,500 for a stereo system, and the quality of the sound would not be as good as a system that costs $500 today.

In those days electronic products were the playthings of the well-to-do or devoted tweeks. The Compact Disc was just a twinkle in a Japanese engineer's eye. Walkman-type products and personal computers were unheard of, and the format battle was not between VHS, Beta and 8mm, but rather between 8-track and regular cassettes

But today an electronics store is a veritable wonderland. There is no reason why you shouldn't be able to indulge your whims during the school year when it comes to electronic equipment. Prices today are relatively low and quality is extraordinarily high. One story that illustrates the rapid advancement that has taken place, and perhaps it is apocryphal, says that back in the 1950s a small manufacturing town in Japan changed its name to Usa so it could stamp "Made in Usa" on its transistor radios. It's been quite a long time since the label "Made in Japan" was synonymous with inferior products.

Macintosh Apple
New peripherals expand Mac's power.

Tandy
A laptop computer with 32K RAM power

Much of this change has been due to the quality control programs made possible by microprocessor-based electronic systems. Today, most brand-name products, such as Sony, Toshiba, and Panasonic, as opposed to names you have never heard of, offer generally good quality. If you know what you want, you can be reasonably sure that you can get it.

The following assortment of products, by way of example, represents a somewhat eclectic list of some very good equipment. In each case there are alternative competitive products which might be better suited to your needs or pocketbooks. In no way should this be construed as the definitive list of product choices; on the contrary, the following products might be better viewed as the tip of the iceberg of offerings. For the prices, though, I'd venture to say that it would be hard to go wrong if you picked up one or another of the products recommended here.

A final caution: Prices given are suggested retail and have no bearing on the real world. If you pay the suggested retail, as a rule of thumb, you've paid too much.

Dan Shannon is the editor of LEISURE TIME ELECTRONICS MAGAZINE.

TECHNOLOGY & YOU

What's Up At Apple?

Apple continues to push its wares with aggressive peripherals and solid backup from independent software companies. Presumably you don't need to be sold on the Mac — you either love it or not; few in-betweens on that product — but if you're like some Macintosh users, you're beginning to want more flexibility. The word is, when the computer was being designed, the designers wanted to create the "perfect" personal computer with little need for add-ons. Since then, a few peripherals with the intention of expanding the Mac's formidable power have been introduced. Recently a Hard Disk 20, a 20-megabyte hard disk for Mac 512K users, was brought out with an eye toward the business market. In fact, it wouldn't hurt to have that kind of speed (two to three times faster than using floppy disks) on campus, though with a $1,000-plus tag it's a trifle pricey. The storage capacity (equal to 50 floppy disks), however, makes it a potentially time- and cost-effective purchase. If you're a business major, for example, you can probably write off the expense; if you can't, you might want to consider changing majors.

Toshiba Gets Small

If you're lacking a dorm stereo to plug your Sony portable CD into, then check out Toshiba's System V11, a mini-stereo component system that delivers more performance than its size indicates. With 20 watts per channel, this double-cassette deck (with auto reverse) features IC logic operation, five-band graphic equalizer and meter level. Also, the unit has a belt-drive turntable and compact two-way bass reflex speakers. The System V11 has a suggested list of $500. An optional double-drawer compact disc player with 30 program random memory (shown in photo) can be added for an additional $500.

Radio Shack On Your Lap

There's a new Tandy 600 laptop computer being sold through Radio Shack's 1,100 outlets for a pricey $1,599 (suggested list) but it may be worth the investment. Briefly, the laptop includes 80-column display, built-in 3.5-inch floppy disk drive, 32K RAM (expandable to 224K) and several useful built-in software programs including file management, database, word processing, spreadsheet, calendar, and a telecommunications program. All that is fairly standard, but the features work well with the ergonomics — it feels good to use. Computer purchases are tricky, but you should keep in mind that there is more in the barrel than IBM and Apple.

Toshiba's System VII
A double cassette, portable mini-stereo component system with 20/w per channel and two-way speakers

Sony's Watchman
At ultra-compact black and white TV that produces sharp images on its recessed, business-card size screen; unit weighs just 14.5 oz. and works indoors and out

Smith Corona's PWP
A personal word processor with 64K of memory, and a full range of editing capabilities, including the ability to move paragraphs and search and replace text

GE's Boombox
Good sound quality is built around features that include a dual cassette, AM/FM stereo tuner, five-band equalizer, detachable four-speakers, and built-in microphone; suggested price, $150

GE Is Music To Your Ears

The American companies have pretty well abandoned the audio industry to the Japanese (and some Europeans), but that doesn't mean that U.S. companies can't buy the units and slap their names on them. Such is the case with GE's Model 3-5685 boombox. If you've listened to boomboxes (a.k.a. ghetto blasters and a dozen other names) recently, you're aware that the sound quality is pretty good. Take, for example, the GE "Power of Music" unit which features dual-cassette (record from one to the other), AM/FM stereo tuner, five-band equalizer, detachable four-speaker system and built-in microphones. The suggested retail price is $150.

The competition in boomboxes is fairly fierce these days, so check out other than just the GE model. But GE has a good product.

Smith Corona Gives The Word

It's not a typewriter and it's not a computer—it's a Personal Word Processor (PWP) from Smith Corona. What's the difference? According to Smith Corona, the "PWP is a dedicated accessory unit with 64,000 characters of memory—or approximately 32 pages of text—offering complete editing capability including the ability to insert and delete text, move paragraphs, search and/or replace text for the low suggested retail price of $499.99." Sounds suspiciously like a computer to me, but, in fact, besides acting like a word processor it doesn't do anything else. Which is great if you don't need to do anything other than manipulate words. The system works with Smith Corona's Messenger electronic typewriters and include keypad, 80-character/24-line monitor, WP module with built-in software, connecting cable and cassette drive. It's a sharp system.

How To Watch Just A Little Television

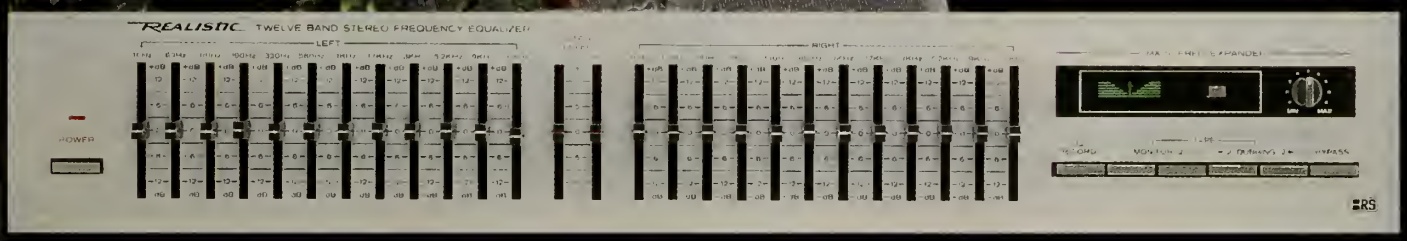
Good for football games, *General Hospital*, even educational programs, Sony's ultra-compact Watchman (FD-2A) television set is 6 1/4-inches long by 5/8-inches wide and weighs 14.5 ounces (batteries included). Now *that's* small.

Beyond it's size, however, the Watchman has more to offer. It's a really good little set of its ilk. With recessed and titled two-inch screen (measured diagonally), Sony has added a flat picture tube which displays relatively crisp, high-contrast black and white images, indoors and out. The model — which carries a suggested list of $179.95 — is powered by four AA batteries (for five hours of viewing), optional AC power adaptor and car battery adaptor cord.

In this instance, seeing is believing. ■

Bring the Dramatic Sound of a Live Performance to Any Room

Radio Shack's New 12-Band Equalizer With IMX Stereo Expander



Unleash the potential of your stereo system with our Realistic® graphic frequency equalizer. With its patented IMX™ Stereo Expander circuit, you'll hear sound that's remarkably similar to a live concert.

The Expander alters the apparent location of sound. Normally, what you hear is concentrated between the two speakers. The expander creates the illusion that sounds are coming from outside this area. The result is a "live" effect comparable to what you hear in a theater. But there's more . . .

Furniture, carpet, room size and shape affect frequency response. But with 24 narrowband controls to adjust audio response up to 12 dB from 36-16,000 Hz, you can practically eliminate acoustic distortion from rooms. And, you can add "punch" to certain instruments or vocals.

You also can make custom-equalized recordings. The built-in dual-tape control center lets you record and monitor from one tape source to another without swapping patch cords.

Come in today for a demonstration. Bring your Radio Shack/CitiLine* card. Only $119.95.

CAREER ADVISORY

What do you want to be when you grow up? CAMPUS SURVIVAL GUIDE asked two of the nation's top student advisors for their sage advice on the best way to select and prepare for a successful, satisfying post-college career.

CROSSROADS

Which career path is the right one for you?

BY JAMES I. BRIGGS

Almost 100 years ago, in the magical fairy tale *Alice in Wonderland*, Lewis Carroll offered advice to the reader that is still important today.

When Alice was lost and had to decide which direction to take, she asked the Cheshire Cat, "Would you tell me please which way I ought to go from here?"

"That depends a good deal on where you want to get to," answered the cat.

"I don't much care where," said Alice.

"Then," said the cat, "it doesn't matter which way you go."

Whether you are just beginning college or about to graduate, you, like Alice, are faced with decisions about where to go from here. And like Alice, if you don't know where you want to go, it really doesn't matter which path you take. Or as the writer David Campbell once put it, " . . . if you don't know where you're going, you'll probably end up somewhere else."

So, as Mr. Carroll has illustrated, deciding which way you want to go means first deciding where you want to go. Right now you may be deciding which major to choose, whether to go to graduate or professional school, or simply whether to take a part-time or full-time job this summer. All of these decisions are important; they will all have an influence on your future. A good or satisfying decision is one that produces the results that you wanted. The problem is that making decisions is not always easy and usually does not come naturally. In fact, good decision-making is a skill that most people have to learn and practice.

An important way to begin tackling decision-making is to set goals. Goals are extremely important in making any decision. Goals help us get from where we are to where we want to be. We need goals for motivation and as signposts that tell us where we are heading. Setting goals and then defining them as specifically as possible will make all the other decisions we have to make easier and more satisfying.

The biggest obstacle to setting goals and making decisions is a lack of self-knowledge. We often ask ourselves, in Lewis Carroll's words, "Who in the world am I? Ah, that is the great puzzle." The values and preferences of the person making a decision often determine whether the result of the decision is satisfying or not. It is important, then, that we know ourselves well so we may understand clearly the outcomes and results we want from our decisions.

Inadequate information about the options that are available to us is probably the second greatest deterrent to good decision-making. The more limited our knowledge of the possible choices and alternatives, the more likely we are to make a decision that doesn't give us the degree of satisfaction we might have hoped for.

Often, our lack of knowledge about ourselves and the options available to us leads to feelings of uncertainty, self-doubt, and a lack of confidence. As a result we tend to put off making a decision, or worse yet, we look for events or circumstances, or even other people's beliefs or opinions, to unduly influence our decisions or make them for us.

Let's take a look at career decision-making as a way of illustrating the points made above and delineating the steps in the decision-making process.

First, let's examine some commonly held beliefs, or myths, about careers that are held by many people. These myths often have an undue influence on students and can short-circuit your own career decision-making process.

James I Briggs, author of THE BERKELEY GUIDE TO EMPLOYMENT FOR NEW COLLEGE GRADUATES (Ten Speed Press, 1984), is director of the Career Planning and Placement Center at the University of California at Berkeley.

GOALS

MYTH: The demands of the job market should determine your academic and career choices.

Selecting a major or pursuing a career just because it's "hot" in the job market can be dangerous. You may not enjoy the course work or the job you get later. The careers in demand when you are a freshman or sophomore may not be in demand by the time you graduate. You are on much firmer ground when you select a major or choose a career goal that genuinely interests you.

This is a myth that many parents may also believe. Anxious about your future and concerned about the financial "investment" they may be making in your education, parents may put undue pressure on you to major in an area where a job after graduation appears to be a sure bet. This can lead to difficult conflicts if you feel inclined to pursue a goal that your parents do not see as holding much future promise.

MYTH: When you select a college major you are choosing your career.

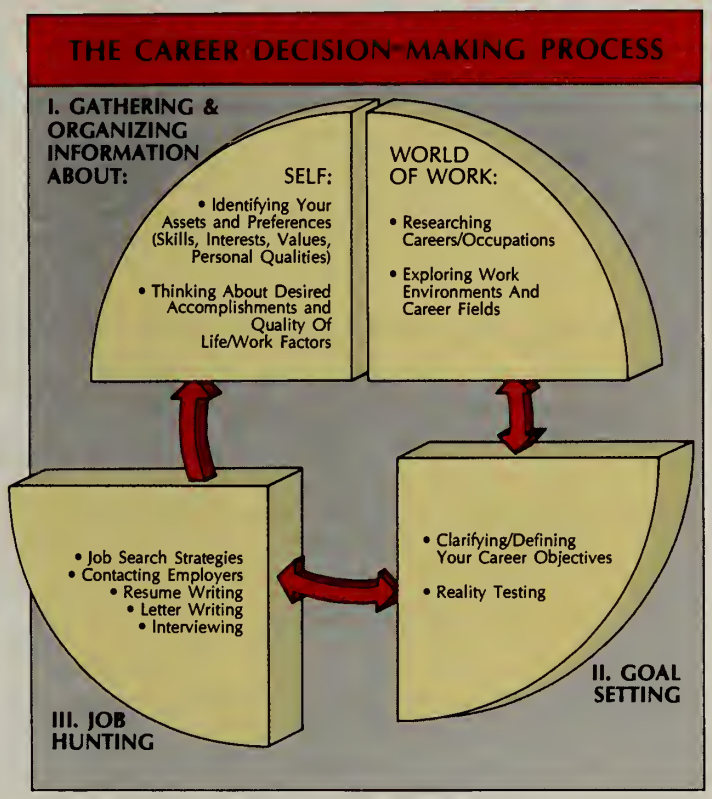
While it is true that certain majors such as engineering, computer science and accounting prepare students for fairly specific career fields, a far greater number of majors do not have a direct correlation with given career areas. Liberal arts majors often find that they have a very wide variety of career options, including some in technical fields, because their backgrounds are so broad. Even within the technical or professional majors, where specific job skills are taught, there are many different kinds of jobs from which to choose.

MYTH: Liberal arts majors are unemployable.

Liberal arts graduates develop skills that are highly valued by employers and that are applicable to a wide variety of professional jobs. While these graduates sometimes take a bit longer to find the right opportunity, their potential for advancement beyond the entry level is usually very strong. If these graduates sometimes take more time finding a "niche" in the working world, it is usually because they do not know what they can do or want to do or they are not aware of the options available to them.

MYTH: Your first job will determine your career.

In any decision involving competing choices where each possibility has its own advantages and disadvantages there is rarely one hundred percent certainty. Any choice involves some risk. Do not think that you cannot change your mind. Particularly in the area of career choice, you are almost always free to explore new directions and make new choices as you learn more about yourself and various careers.



Because work will consume a large part of your life, planning your career is obviously important. The career decisions you make should be based on good information, not myths. There are three steps involved in good decision-making:

1. Gathering and analyzing information
2. Setting goals based on this information
3. Achieving the goals through implementation of an action plan

The career decision-making process follows this model and involves:

1. Gathering and organizing information about yourself and the working world
2. Establishing your immediate and long-range career goals
3. Achieving those goals through effective job hunting

The career decision-making process should begin with self-assessment. You need to look inward before you look outward. Here are six questions to help you collect information about you and your preferences, information that is critical to good career decision-making:

1. What do you have to offer in terms of knowledge, abilities, skills and interests developed through your education and life and work experiences? This includes volunteer work, internships, part-time and summer work, classroom projects, hobbies and extracurricular activities.
2. What do you want to accomplish through your work?
3. What are the characteristics of the work environment you prefer?
4. What geographical location do you prefer?
5. What starting salary do you prefer? What kinds of advancement and salary progression would you like to see?
6. What relationships do you want between your work life and your personal life?

These are big questions and the answers do not always come easily, particularly for upperclassmen. Don't hesitate to seek the help of a counselor or to rely on exercises included among the recommended resources at the conclusion of this article.

Next you will need to start gathering information about the world of work, using what you know about yourself to focus your research. Here are some questions to guide you:

1. What career fields initially seem compatible with my areas of knowledge, skills, abilities, personal qualities, interests and values?
2. What organizations employ people who are interested in these careers?
3. What do people in these career fields actually do?
4. What do people like the most and the least about working in these career fields?
5. How does one best prepare for these career fields?

Once you have gathered and analyzed information about yourself and the working world, it is time to develop a well-defined statement of your career goals. This statement is developed by weaving together the key elements about yourself and the work preferences you have iden-

GOALS

tified through your self-assessment and research. A well-stated career goal will read something like this:

- I would like to use my proven writing ability, editorial experience, ability to research information, creativity, artistic sense and genuine interest in and concern for the environment by working as a writer/editor for a publication produced by a national organization that promotes environmental concern, with offices in Washington, D.C. I want to be making $14,000 to $20,000 per year and work no more than 50 hours per week, leaving time to socialize with friends, attend concerts at least twice a month, and play tennis once a week.

If you are a freshman or sophomore, your career goal may read something like this:

- I would like to develop my organizational abilities, public speaking skills, leadership qualities, and my interest in one day owning my own sporting goods business. I would like to accomplish this by becoming actively involved in student organizations that promote attendance at campus athletic events and by working part-time, perhaps in a local sporting goods store. I want to develop my skills and broaden my experience, and to effectively use opportunities to take supplemental courses in psychology and business administration.

Once your goal is set, it is time to begin accomplishing that goal by implementing a plan of action that will take you from where you are to where you want to go. Your chances of success will have improved dramatically as the result of setting goals and making decisions. Unlike Alice, you will know where you want to go. ■

Prepare for launch: Making the most of your college opportunities

BY THOMAS DEVLIN

As Linus, of Peanuts, said: "There is no heavier burden than great potential." For most college students, however, it is not a matter of having the potential but, instead, how to channel potential toward life and career satisfaction that results in the "heavier burden."

From the time you arrive on campus and throughout your academic years, you should be involved in career exploration. Whether you are a freshman thinking about a future in medicine, a sophomore studying electrical engineering with a career in the electronics industry in mind, or an arts and sciences junior beginning to narrow down your career options, you probably will discover that career planning just doesn't happen over night; it is a gradual, evolving process that requires your attention well before your senior year.

There is no secret formula for career discovery. So, how does one begin? At the outset, it is important for you to look at the career planning process as a challenging opportunity to blend your talents, skills, knowledge and experiences. Think about the entire process as a series of **accomplishments** — often building on each other or occuring simultaneously. You will be pleasantly surprised to discover, when the time comes, that you have already laid the groundwork necessary for making the best career decisions.

Accomplishment — Know Yourself

The first critical step in your career planning is to develop a better understanding of yourself. Take a good look at yourself and your interests. What do you really enjoy doing? What are your preferences? Do you want to work for a large or small company? What types of people do you want to work with?

Certainly, you should keep in mind employment projections when thinking about careers; however, the primary consideration should be personal satisfaction in the career direction you've chosen. Examining your interests, abilities, values, and ideal lifestyles before you think more specifically about careers will give you a much better idea of how to proceed.

Accomplishment — Developing Your Skills

Coursework, grades and work experience are all factors that employers consider when evaluating applicants. There are, however, several other elements that employers recognize as equally important when seeking well-rounded candidates.

— **Human Relations Skills:** The ability to interact well with a wide variety of people. As one vice president of a major industrial organization said, "While a person's technical knowledge is central to his/her performance in our firm, his/her ability to communicate with colleagues and clients will play a major role in that person's ultimate success."

— **Communication Skills:** The ability to convey one's thoughts in a clear, concise manner. As heard every year from employers when describing the success of past graduates: "It seems that the truly successful and versatile individuals are those who learn to communicate, orally and in writing, during their college years."

(Continued on inside back cover)

Tom Devlin, past president of the Middle Atlantic Placement Association, is the director of the Career Center at Cornell University.

If you think the best way to pay for college is to put it off for a few years and join the military, you're half right.

Because with the New GI Bill, you can join the Army National Guard and earn $18,000 for college.

But best of all, you serve two days a month and two weeks a year. Which means you can go to school full-time. Right now. On us.

So the question you have to ask yourself is not, can you afford college.

The question is, can you afford to wait.

For more information about the Army Guard and the New GI Bill, fill out the attached coupon and mail it in. Or call **800-638-7600***

PROFILE IN SUCCESS

FROM MATH WHIZ TO COMPUTER BIZ

To David Lebling, creator of Zork, life is one big computer game

BY MAURY LEVY

He wasn't supposed to be a computer expert. He wasn't supposed to have invented *Zork*, the biggest selling adventure program in the history of computers. But David Lebling was never a big believer in destiny.

When he was growing up in the Maryland countryside, Lebling was a voracious reader, particularly of science fiction. When he wasn't reading or plotting fantasy worlds, much of his time was spent playing board games. His favorite was *Diplomacy*, the sophisticated game of politics. He almost went to Georgetown with political ambitions. Instead, he ended up at M.I.T.

"I had done really well in math in high school," Lebling says. "And I figured I was going to be a real hot shot once I got to college. Of course so did everyone else at M.I.T. I ended up being just part of the pack. I decided I needed a different direction—something that would make me stand out. I ended up, by pure luck, enrolling in a computer course.

"My interest in computers leaned toward the logic side, not the technical. I was an electrical engineering major for a little while. But I decided I just wasn't cut out to deal with all the wires and switches. It was the writing part—the programming—that really fascinated me."

It was his interest in programming that got him his first job, at M.I.T.'s Laboratory for Computer Science. That's where he worked until 1980 when he joined Infocom, the industry leader in great games. At the Lab, he worked on complex projects ranging from Morse Code decoding to electronic mail systems. He also became the unofficial games person, developing the language for interactive fiction and putting together the mainframe version of *Zork*.

"At the Lab, I realized the true significance of computers," says Lebling. "They weren't just an end. They were a means to many ends. They helped change my thought process and my way of looking at many facets of life.

"But I didn't spend all my time at the keyboard. One of my favorite courses was Russian History. What did that have to do with computer work? Not much if you want to deal in direct correlations. But it helped give me a perspective on the world. Everything you study helps prepare you for some part of your life."

What's Lebling's advice to today's students? Diversify. "Don't get hooked on just one aspect of learning or life. There's plenty of time later to specialize. You need as well-rounded a background as you can possibly get. Take any course that sounds interesting—anything that seems even remotely related to your goal. If you're dealing with a larger body of knowledge, the paths you take will be so much better thought out."

Many of Lebling's co-workers at Infocom have taken that advice. One was a physicist, one a medical doctor, another a construction expert. None are "just computer people."

And Lebling leads the team. He's worked on *Enchanter* and *Starcross* and wrote *Suspect*, an interactive whodunit. He just completed *Spellbreaker*, the conclusion to Infocom's *Enchanter* series.

Where does he go from here? "I'm working on the next generation of interactive computer games," he says. "It'll probably be a year or two before you see any results, though. Even in computers, the future takes time." ■

Maury Levy is a freelance editor, writer and interviewer.

EXTENDED DAY PROGRAM

Fall 1986

The Schedule which appears in the following pages is for the convenience of students taking courses in what we call our "extended day"—the late afternoon and evening hours. The majority of these courses begin at 6:00 p.m. (18:00 hours) and meet once a week for two and one half hours Monday through Thursday evenings; the rest meet twice a week for one hour and fifteen minutes.

In these pages we have listed all courses, undergraduate and graduate according to the academic programs that offer them. We have also listed the undergraduate courses according to the days of the week on which they meet.

Programs Available in the Evening

Many of the University's more than sixty degree programs are represented by extended day courses. In some programs, students can complete all degree requirements through evening study alone — that is, by taking courses scheduled after 5:00 p.m. These programs are:

Undergraduate		Graduate	
Computer Science	Management	American Civilization	Human Services
Economics	Political Science	Bilingual/ESL Studies	Instructional Media
English	Psychology	Business Administration	Public Affairs
History	Sociology	Chemistry	Applied Sociology
		Computer Science	School Psychology
		Counselor Training	Special Education

Registration for Fall 1986:
Undergraduate Advising — April 28 through May 3, 1986

COLLEGE OF ARTS AND SCIENCES

Monday, April 28 through Thursday, May 2; 10:00 a.m.–12:00 p.m. and 2:00 p.m.–6:00 p.m.
Friday, May 3; 10:00 a.m.–12:00 p.m. and 2:00 p.m.–4:00 p.m.
McCormack Hall, 3rd Floor, Room 130. Telephone 929-8220.

COLLEGE OF MANAGEMENT

Monday, April 28 through Thursday, May 2; 9:00 a.m.–7:00 p.m.
Friday, May 3; 9:00 a.m.–5:00 p.m.
McCormack Hall, Office of Student Services, 3rd Floor, Room 415. Telephone 929-8105.

INSTITUTE FOR LEARNING AND TEACHING

Contact Hannah Gilman
Science Building, 3rd Floor, Room 216. Telephone 929-7854.

SCHOOL OF NURSING

Monday, April 28 through Thursday, May 2; 8:30 a.m.–6:30 p.m.
Friday, May 3; 8:30 a.m.–4:00 p.m.
Science Building, School of Nursing, 2nd Floor. Telephone 929-8500. Advisors: Myron Segelman & Diane Pedulla.

Advising for Graduate Programs

Matriculated graduate students should contact their graduate program directors for registration materials and advising. Continuing Graduate Special Students can obtain their forms in the Office of Graduate Admissions and Records, Administration Building, 2nd Floor, or from their graduate program directors.

Timetable Key to Show Equivalent 24 Hour Time

6:00 pm	=	18:00 hours
7:00 pm	=	19:00 hours
8:00 pm	=	20:00 hours
9:00 pm	=	21:00 hours
10:00 pm	=	22:00 hours

NOTE: Extended Day Students—If you have any questions regarding registration and academic advising, please call the Extended Day Office, 929-7755.

(Continued on page 58)

You're a nuclear-trained officer. It goes beyond special. It's elite! And your status reflects a job that demands your best. Proving your skills at the heart of today's nuclear-powered Navy.

Over half of America's nuclear reactors are in the Navy. That adds up to more years of experience with reactors than any company in the world, and it means working with the most sophisticated training and equipment anywhere.

There's no boot camp. College graduates get Officer Candidate School leadership training, and a year of graduate-level training in the Navy Nuclear Power School.

The rewards are topnotch, too. Generous bonuses upon commissioning and also upon completion of nuclear training. Sign up while still in college and you could be earning $1,000 a month right now.

Be one of the most accomplished professionals in a challenging field. Lead the adventure as an officer in the Nuclear Navy. Contact your Navy Officer Recruiter or call 1-800-327-NAVY.

NAVY OFFICER.

LEAD THE ADVENTURE.

Choosing a long distance company is a lot like choosing a roommate.

It's better to know what they're like before you move in.

Living with someone for the first time can be an "educational" experience.

And living with a long distance company isn't any different. Because some companies may not give you all the services you're used to getting from AT&T.

For instance, with some companies you have to spend a certain amount before you qualify for their special volume discounts. With some others, voice quality may vary.

But when you choose AT&T, there won't be any surprises when you move in. You'll get the same high-quality, trouble-free service you're used to.

With calls that sound as close as next door. And discounts off our Day Rate on your state-to-state calls. With savings of over 50% during weekends until 5pm Sundays, or nights from 11pm to 8am, Sunday through Friday. And 40% discounts evenings between 5pm and 11pm, Sunday through Friday.

With AT&T, you'll continue to get services like immediate credit for wrong numbers and collect calling. And long distance operators to help you anytime there's a problem on the line.

So when you're asked to choose a long distance company, choose AT&T. Because whether you're into Mozart or metal, quality is the one thing everyone can agree on. Call **1 800 222-0300** for more information or to choose AT&T.

Reach out and touch someone.®

GOALS

— **Problem-Solving Skills:** The ability to think critically and analyze everyday situations. A campus recruiter from a retailing firm remarked, "Regardless of the students' majors, we're seeking individuals who have learned to handle problems in and out of the classroom."

— **A Broad Perspective of Life:** The ability to appreciate the relationship between one's field of study and all aspects of society. Challenge yourself during college, take courses outside your major, learn a language, obtain a sense of history, spend a semester studying abroad, and involve yourself in extracurricular activities. College provides the opportunity to build a broad understanding of society.

— **Mastery of an Academic Discipline:** The ability to acquire a comprehensive understanding of a particular academic field. By ascertaining how well you have performed in your academic major, employers can often determine how well you will handle the responsibilities of the job you are seeking.

Accomplishment — Understanding The World Of Work

Formulating sound decisions requires a good data base. This is particularly true when making decisions about your future. Along with a good understanding of yourself, you will need to acquire an accurate picture of the marketplace. There are several directions you can choose to get a better sense of the "realities" of the world of work.

— **Read** about the myriad career fields and employment opportunities by visiting the library in your career planning and placement office.

— Accept a **volunteer** position to learn more about a particular work environment. After spending a semester volunteering a few hours a week in a hospital, for example, you will have a far more realistic assessment of what's involved in health-related careers.

— **Talk** to alumni and others who are working in career fields you find interesting. **Ask** them why they chose that career, what it takes to be successful, what they like and dislike about their field, how they made the transition from college to workplace. Information interviews offer the opportunity to expand your knowledge through first-hand experience of others.

— Seek an **internship** or career-related work experience — "reality testing" at its best! Not only will you gain valuable work experience, but you will have an excellent opportunity to **test** your skills and interests.

— **Take advantage** of career forums and career days presented at your school. If you are a sophomore or junior, **attend** presentations given by employers. Never pass up an opportunity to learn more about the wealth of career options.

Accomplishment — Launching Your Career

As a senior you will continue to explore options and synthesize career planning information. While there probably are many careers in which you have some interest and for which you may be qualified, your goal should be to narrow the field to careers that seem best suited to you.

In addition, as you conduct your career search, you should realize that a career is made up of individual jobs; your first job may not necessarily lead directly down a straight and narrow career path. There will probably be detours and turns and U-turns before your career path is firmly established.

While you may decide to go directly to graduate or professional school, it is more likely that you will enter the work force following graduation. As you begin to focus upon areas of interest you will be turning your attention to researching prospective employers and acquiring job search skills such as preparing an effective resumé, writing convincing cover letters, and developing sharp interviewing techniques. One of the best resources to help you through the entire career process is your college career planning and placement office. ■

CAREER PLANNING SERVICES

Career Counseling

Individually and in groups, covering clarification of values, skills identification, personal needs, life goals, and assisting students in formulating plans for decision making

Career Library

Includes information on careers and career development, job-hunting techniques and strategies, employers and employment, graduate and professional schools, and internships

On-Campus Recruiting

Provides seniors and graduates a convenient means of interviewing with prospective employers on campus during fall and spring semesters

Job-Hunting Workshops

Seminars on effective job-hunting strategies including resume writing, interviewing techniques, and exploring alternative career fields

Job Placement Counseling

Assists students in exploring a full range of employment options and in presenting themselves as candidates for employment

Career Days/Graduate & Professional School Days

Introduces students to prospective employers and admissions representatives from a variety of geographical areas

Computerized Guidance Programs

An aid that provides students with information about career fields and insights about their personal preferences and vocational interests

Internships/Field Experience Programs

Assists students in identifying appropriate work experiences which often relate to their academic studies

Alumni Career Networks & Job Referral Programs

Assists students in exploring career interests through alumni as mentors and sources of career information, and helps identify prospective employers for full-time employment after graduation

AIM HIGH

Climb higher, faster in Air Force ROTC.

Air Force ROTC could be the gateway to your future. When you graduate you'll be commissioned as a second lieutenant in the Air Force. That means you'll manage people, projects and offices; you'll be in charge, making decisions, shouldering the responsibility. You'll belong to an organization dedicated to achievement, innovation and high technology.

And as an officer you'll have the satisfaction of knowing that your work makes a difference to the Air Force and to your country.

Check with your guidance counselor or write: Air Force ROTC, HQ AFROTC/RROO, Maxwell AFB, AL 36112-6663.

Aim High. Be in Air Force ROTC.

AIR FORCE ROTC

If you're hungry for power,
Pontiac presents a highly moveable feast.

Trans Am's 5.0 liter V8, 5-speed gearbox, rear deck spoiler, turbo cast aluminum wheels, special aero package and available WS6 performance suspension ought to satisfy the most voracious appetite. Dig in and enjoy.
